

WEE-SCREEN®

30 Day Urinal Screen

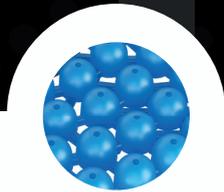

WHAT IS **WEE-SCREEN**[®]

30 Day Urinal Screen

Wee-Screen[®] urinal screens are a 30 day fragrance solution for most urinal shapes and sizes. Wee-Screen[®] is an effective solution that reduces bad smells for up to 30 days with a deep bubble design that prevents splash back and drain blockages.

BUBBLES

Revolutionary design.

Reduce bad smells

The special formulation in our Wee-Screen® urinal screen is designed to provide optimum fragrance to urinals and surrounding areas. The screen is not just suitable for small washrooms, but also for high frequency areas.

STRENGTH

Effective performance.

Clever design features

With its unique design features, and strong fragrance performance, the Wee-Screen® offers the perfect solution for urinal maintenance with enhanced fragrance delivery and splash back protection for up to 30 days. Its flexible core is built using interlacing strips of EVA material to form a strong lattice, making it less rigid than other screens, giving it the ability to fit almost any urinal.

The deep bubbles in the design reduce the risk of splash back, whilst at the same time allowing water to drain away, yet preventing refuse or other materials to block urinal traps.

Easy servicing benefits

Even the finer details are a consideration with the Wee-Screen®, like a large, slightly raised grip pad for ease of servicing. Each screen has vibrant shades to encourage use and a visual target area for the user to help improve accuracy.

SCREEN

Protection & fragrance.

Features & Benefits

- High quality & strong fragrance up to 30 days.
- Unique bubble design to allow water drainage.
- Deep bubble design for optimum splash back protection.
- Helps prevent blockages in urinals and drains.
